

# REGISTRATION OPENS APRIL 1ST!

**Wednesday, July 23, 2025**

**8:30am—3:15pm @ 820 Bates Road, Jasper ON**

## **My Sprayer Senses are Tingling *with Tom Wolf***

With advancements in sprayer sensors, growers can choose between optics (Weed ID and green on green) and chlorophyll (Green on brown). How do the algorithms work, what does that actually mean to how the sprayer applies product and is there really an economic and practical advantage here in Ontario?

## **Droning on and on *with Adrian Rivard & Dr. Michael Reinke***

How do we swath a drone, what are the benefits and limitations, and how long does it really take to spray a field?

## **Tenders and Nurses and Closed Transfer—Oh My! *with Ed Hanson & Jason Deveau***

Tired of lugging jugs up and down ladders? Come explore new ways to load a sprayer efficiently and safely.

## **Don't Catch my Drift! *with Mark Ledebuhr***

Come learn how nozzle choice, boom height, travel speed, formulation and weather conspire to increase drift potential.

**PLUS!** Get an opportunity to learn more about four cutting edge sprayers.

Meet dealers, technicians and see them perform on an obstacle course!
